PCM-T3013

Anthony is a brilliant young boy born and brought up from a poor background by his both parents, father and mother. One evening his father went into a nearby shopping centre and a fight broke out between the villagers which became severe and a lot of damage was done.

Unfortunately, one of the culprits died in the fight. Since Anthony's father was around during the fight, he was called upon by local authorities to be a witness. He was later charged guilty of the offence and was imprisoned for 12 years. Anthony and his three siblings were left under the care of their poor mother who hardly gets food for the family. The family is going through difficult times since their bread winner was imprisoned.

Anthony and his siblings are in school which they hardly attend due to lack of school fees. His mother works as a casual labourer in the neighbourhood with whose earnings she only manages to buy food. Anthony is in grade six and that's far from completing basic education. Their house is dilapidated hence subjected to various sicknesses. Any help either in kind or financial support accorded, would go a long way to help him.

CAROLINE

9YEARS

PCM-T3002

Caroline is a good looking girl child with a very bright future. She was born and brought up in a poor family with both parents. Caroline has two other siblings who were happily living with their parents until one poor fateful day when they were snatched their bread winner by the prison.

As it is the norm in her locality for men to stay up late in the evening around the shopping centre chatting, Caroline's father did so one evening. That particular day they were enjoying some illicit brew in a nearby homestead until it was late in the evening. Later after he had staggered home, a fight broke out among the others left and one of the fighters was killed in the process. All the people who had visited the home for liquor were summoned by authorities to record statements. Eventually Caroline's father was charged guilty for murder and was imprisoned for eight years. He has since served only one year in prison. Caroline and his siblings were left under the care of their grandparents because the mother had previously left the husband and got remarried elsewhere.

Caroline and her two siblings are in school which they hardly attend due to always being sent home for school fees and school requirements like uniform,

books, pen and shoes. Caroline aspires to be doctor when she grows up and we wish this dream would be achieved if any assistance is accorded.

Caroline and her siblings require both kind and financial support. Their elderly grandparents hardly bring something home. They are too old to even work as casual labourers.

Any assistance accorded to this family would be of great help.
